

FUN WITH FOUNDATION PAPER PIECING

18 - STAR 1

STEP 1 - PRINT AND CUT THE TEMPLATES

Print the templates on page 3 onto copy paper, or, if you want to fussy cut your fabric, you might like to use tracing paper instead. Cut templates around the solid edge.

STEP 2 - PRINT THE PIECING PATTERN

You will need to make four 3 inch blocks in order to complete one star. If making just one star block, print pattern page 4 once. If you want to make a larger project, check the chart on page 2 to see how many pattern sheets to print.

STEP 3 - CUT FABRIC

Use the templates you created in step 1 to cut out your fabric. Make sure to place the template **RIGHT SIDE UP** on the **RIGHT SIDE** of your fabric. You will need two colours of fabric - one part 1 and another for parts 2 & 3.

STEP 4 - TIME TO SEW

Stitch the fabric parts to the pattern in numerical order for all four blocks. Then, stitch the blocks together to form the star.

STEP 5 - NO NEED TO TRIM!

Whilst not necessary, it is a good idea to check whether you need to trim as you go. Doing so will give you neat edges to place the next pieces against.

WANT TO MAKE MORE?

If you would like to make more than one block, use the table below to calculate the number of 6 inch blocks you will need to make for your project.

Finished Project Size (No Sash or Border)	No. of 6 Inch Blocks Required	Pattern Pages To Print
6 Inch Block	1	1
12 Inch Block	4	4
24 Inch Block	16	16
36 Inch Square Quilt	36	36
48 Inch Square Quilt	64	64
60 Inch Square Quilt	100	100
72 Inch Square Quilt	144	144
84 Inch Square Quilt	196	196
96 Inch Square Quilt	256	256
108 Inch Square Quilt	324	324
